

AMONG THE ADVANTAGES OF A TRUST COMPANY

—ARE—

CONTINUOUS EXISTENCE,
INVESTMENT EXPERIENCE
STATE SUPERVISION

In addition, the highly specialized service of a Trust Company costs no more than that of an individual.

For these reasons, among others, it is more and more becoming the practice among leaders of industry and finance to name a trust company as executor and trustee.

It is well worth your while to watch the news reports of the disposal of large estates and to consider whether it would not be to your advantage to obtain the benefit of our service for your family, whether your estate be large or small.

The officers of this company will be glad to consult with you on any Trust matter you may have in mind.

Capital and Surplus \$600,000.00.

COUNCIL.

December 2, 1918

Council convened in regular session with Mayor H. H. Haas, presiding. Roll call of the officers showed W. Frissell absent.

Record of previous meeting read. Motion of Mr. Wittmor, roll was called for its adoption, the vote resulting as follows: Ayes, Haas, Wittmor, Nays, none; whereupon the mayor declared said record duly adopted.

There was then read the report of the Superintendent of Public Affairs

for the month of November, 1918:

Fire Dept.	\$228.34
Police Dept.	330.35
Attorney and court costs	26.01
Officers' salaries	640.70
U. S. Prisoners, Misc.	96.50
	\$1491.80

There was then read the report of the Superintendent of Public Safety for the month of November, 1918:

Light and water	\$1881.32
Court house and yard	60.95
Books and stationery	124.16
Board of Health	112.94

There was then read the report of the Superintendent of Streets and Parks and Public Improvements, for the month of November, 1918:

Park	\$22.70
Engineer	2.00
Streets	662.54
	\$686.24

On motion of Mr. Wittmor, roll was called for their adoption, the vote resulting as follows: Ayes, Haas, Wittmor; Nays, none, whereupon the mayor declared said reports adopted.

The following bills were then read: C. P. Stone, \$5.50; Wm. Hutters, \$2.25; C. F. Stone, \$3.60; New Rigdon Laundry, \$1.32; Pierce Oil Corp., \$11.55; Pierce Oil Corp., \$4.25; St. Louis Elect. Works, \$2.89; Goodyear Rubber Co., \$57.60; Robinson Fire Apparatus Co., 75c; The Boston Store, \$6.40; Boston Store, \$1.50; Cape Gir. Bell Tele. Co., \$1.50; Jones Prtg. Co., \$8; Black Diamond Coal Co., \$3.10; Buxton & Skinner, \$2.35; S. E. Missourian, \$5; L. T. Lindsay, \$2.25; Bahn Bros., \$5.55; R. C. Young, \$10; W. J. Seagraves, \$77; Burroughs Adding Machine Co., \$20; Taylor-Masterson & Linson, \$8.10; A. C. Diftlinger, \$3.80; L. L. Albert, \$1.50; Cape Gir. Bell Tele. Co., \$1.50; Edw. He'y, \$160.23; A. F. Mauer, \$21.70; Vogelsang Bros., Con. Co., \$15; Ruchmann Hide & Fur Co., \$5.77; Haas Bros., \$15.

On motion of Mr. Wittmor, roll was called and the bills as read be approved and warrants issued, the vote resulting as follows: Ayes, Haas, Wittmor; nays, none, whereupon the mayor declared said motion duly adopted.

There was then given the first and second reading of an ordinance to establish the office of Electrical Inspector for the city of Cape Girardeau, to regulate and define the duties of such office and to establish rules and regulations concerning the installation of electrical wiring and appliances and fixing penalties.

On motion of Mr. Wittmor the third reading was deferred to next meeting. On motion of Mr. Wittmor, council adjourned.

H. H. Haas, Mayor
Attest: A. P. Behrens, City Clerk.

ADVICE TO "FLU" CONVALESCENTS

SPAIN AND ENGLAND REPORT INCREASE IN TUBERCULOSIS AFTER INFLUENZA EPIDEMIC.

★ Beware tuberculosis after influenza. No need to worry if you take precautions in time.
★ Don't diagnose your own condition. Have your doctor examine your lungs several times at monthly intervals. Build up your strength with right living, good food and plenty of fresh air.
★ Don't waste money on patent medicines advertised to cure tuberculosis.
★ Become a fresh-air crank and enjoy life.

Washington, D. C.—(Special.)—According to a report made to the United States Public Health Service, the epidemic of influenza in Spain has already caused an increase in the prevalence and deaths from pulmonary tuberculosis. A similar association between influenza and tuberculosis was recently made by Sir Arthur Newsholme, the chief medical officer of the English public health service, in his analysis of the tuberculosis death rate in England.

In order that the people of the United States may profit by the experience of other countries Surgeon General Rupert Blue of the United States Public Health Service has just issued a warning emphasizing the need of special precautions at the present time. "Experience seems to indicate," says the Surgeon General, "that persons whose resistance has been weakened by an attack of influenza are peculiarly susceptible to tuberculosis. With millions of its people recently affected with influenza this country now offers conditions favoring the spread of tuberculosis."

One Million Consumptives in the United States.

"Then you consider this a serious menace?" was asked. "In my opinion it is, though I hasten to add it is distinctly one against which the people can guard. So far as one can estimate there are at present about one million cases of tuberculosis in the United States. There is unfortunately no complete census available to show exactly the number of tuberculosis persons in each state despite the fact that most of the states have made the disease reportable. In New York city, where reporting has been in force for many years, over 35,000 cases of tuberculosis are registered with the Department of Health. Those familiar with the situation believe that the addition of unrecognized and unreported cases would make the number nearer 50,000. The very careful health survey conducted during the past two years in Framingham, Mass., revealed 200 cases of tuberculosis in a population of approximately 15,000. If these proportions hold true for the United States as a whole they would indicate that about one in every hundred persons is tuberculous. Each of these constitutes a source of danger to be guarded against."

What to Do.

In his statement to the public Surgeon General Blue points out how those who have had influenza should protect themselves against tuberculosis. "All who have recovered from influenza," says the Surgeon General, "should have their lungs carefully examined by a competent physician. In fact, it is desirable to have several examinations made a month apart. Such examinations cannot be made through the clothing nor can they be carried out in two or three minutes. If the lungs are found to be free from tuberculosis every effort should be made to keep them so. This can be done by right living, good food and plenty of fresh air."

Danger Signs.
The Surgeon General warned especially against certain danger signs,

TAXPAYERS' NOTICE.

In order to avoid rush and congestion during the last days of the month, you are requested to come at your earliest convenience and pay your city taxes for the year 1918.

The county collector will not be here, but you should not fail to call at the court house and make prompt payment of city taxes.

A. P. Behrens,
City Clerk.

such as "decine" and "colds which hang on."

These, he explained, were often the beginning of tuberculosis. "If you do not get well promptly, if your cold seems to hang on or your health and strength decline, remember that these are often the early signs of tuberculosis. Place yourself at once under the care of a competent physician. Tuberculosis is curable in the early stages.

Patent Medicines Dangerous in Tuberculosis.

"Above all do not trust in the misleading statements of unscrupulous patent medicine makers. There is no specific medicine for the cure of tuberculosis. The money spent on such medicines is thrown away; it should be spent instead for good food and decent living."

To Our Many Friends and Patrons

We extend our best wishes for a Merry Christmas and a joyous and prosperous New Year.

Missouri Public Utilities Co.

"Peace on Earth, Good Will Towards All Men."

The approaching Holiday Season affords an opportunity to express our appreciation for our business relations with you throughout the expiring year. May peace and the spirit of Xmas be yours all through the year to come.

NORMAL ARMY CAMP IS MUSTERED OUT

The S. A. T. C. unit in the school was discharged and paid off last Friday at noon. It was organized last summer with Captain Coester, a regular army officer who has been in the services for the past 14 years as commandant, with Lieut. Young and Lieut. Strickler, also of the U. S. army as the other officers.

The cadets were paid \$30 per month, board and all equipment included, and was given free instruction in the regular college course. There was enrolled in the unit 436 students from all parts of Southeast Missouri. Many of them will return again at the beginning of the winter term which will be Dec. 30th, to take up the regular college course.

Capt. Coester was able to report that this was the first S. A. T. C. unit to be paid off and discharged in the United States, which speaks well for the manner in which the work of training has been done in this camp. While there were over 80 cases of influenza all told in the month, board and all equipment included, there was not a single death.

The Electrical Voice

It is a very delicate electrical current that carries the sound waves produced by the human voice over the telephone wires.

It reproduces these sound waves in their minutest detail and travels with almost the speed of light.

Sound waves travel through the air at the rate of 1,160 feet a second. Carried through the air at that rate it would take four hours for the human voice to cross the continent.

It takes one-fifteenth of a second for the voice to travel from New York to San Francisco, 3,400 miles over the transcontinental line of the Bell system, so that it may be said that telephonic communication from coast to coast is practically instantaneous.

Every Bell Telephone is a Long Distance Station.
